

REMARKS/ARGUMENTS

Claims 1-14 were rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over U.S. Patent Application No. 10/026,483. Applicant files herewith a Terminal Disclaimer to Obviate a Provisional Double Patenting Rejection Over a Pending Second Application.

Applicant has also amended claim 7 to correctly depend from claim 6 instead of claim 5.

Attached hereto is a marked-up version of the changes made to the specification and claims by the current amendment. The attached page is captioned **"Version with markings to show changes made."**

In view of the above, each of the presently pending claims in this application is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested to withdraw the outstanding rejection of the claims and to pass this application to issue.

Respectfully submitted,
